Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1895 Excerpt: .was largely due to a decline in deaths from diseases of the respiratory organs, which were more than three hundred below the average for the week. There were also only thirty-five deaths from diphtheria. This was the lowest total recorded in any week of the year, with two exceptions only--once in June and once in August. Belief in the efficacy of the antitoxin treatment of diphtheria is daily gaining ground, provided the injections are made sufficiently early in the progress of the disease. London, Eng., January, 1895. QUARTERLY MEETING OF THE STATE BOARD OF HEALTH. The Michigan State Board of Health held its quarterly meeting at the office of the Secretary, in the Capitol at Lansing, January 11, 1895. The meeting was called to order by President Frank Wells, of Lansing; Prof. Delos Fall of Albion, Dr. Vaughan of Ann Arbor, Dr. Gray of Pontiac, Dr. Milner of Grand Rapids, Dr. Granger of Bay City, and Secretary Baker of Lansing, were present. The regular business, including the auditing of bills and accounts, was transacted. As special committee to report to the Board the advisability of entering upon the production of immunizing blood-serum (diphtheria antitoxin), with a view of still further testing in this country the efficacy of the method, Dr. Vaughan, Director of the Michigan State Laboratory of Hygiene, reported that he had thoroughly considered the subject and concluded that at the present time the expense would be too great for the State Board of Health...
