Thouejh the Bolyai and the Riemann geometries are founded on the straight, yet to say in them of two straights that they have the same direction has no ordinary meaning, since in Riemann every two straights cross and inclose a space, while in Bolyai every two parallels continually approach each other. So as to direction, Wentworth has reformed, after 20 years in the land of nod. But he still says, 1899, 49, A straight line is the shortest line that can be drawn from one point to another. Now a relation of equality or inequality between two magnitudes must have some foundation, and be capable of some intelligible test. In the traditional geometry the foundation of all proof by Euclid s method consists in establishing the congruence of magnitudes. To make the congruence evident, the geometrical figures are supposed...
