Yet the most graphic sketch of Origen the teacher has for background not Alexandria, but Caesarea. The Farewell Address which Gregory the Wonder-worker composed, and in all probability also delivered, on the occasion of his leaving Origen's circle there, and Origen's letter of acknowledgment, are not only precious remnants of the once abundant materials for the personal history of Origen, but also important documents in the history of Christian learning. Until the publication of Koetschau's handy edition, they were not easily accessible, being buried in somewhat scarce and expensive collected editions (a remark which applies equally to the existing translations).
