That a mineral, from which oil could be obtained by destructive distillation, existed in parts of Colorado, Utah, and Wyoming, was well known; but this report, followed by those of Winchester<sup>103</sup>, which have been widely quoted, gave rise to a remarkable interest in oil-shales in the United States during 1916, and the beginnings of an attempted development of an oil-shale industry in this country. Since that year an increasing amount of work has been done on oil-shale, but up to the time of this writing (March, 1922), no commercial oil-shale operations have been started in this country, and the industry does not yet exist, except in the literature of promotion organizations. Many retorts of various designs have been proposed, several patented, and a few have been erected, but most of these have been so small that they must be considered as experimental or demonstration plants. Many investigators and organizers are working in good faith, but the potential industry has suffered much harm by the fake promoter and his promotion companies. It is reasonable to say that over 100 companies have been organ<sup>101</sup> Bacon, R. F., and Hamor, W. A., The American petroleum industry: Vol. 1. pp. 203-212 Baskerville, C. E.
