Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

There are volumes of materials out there that will promise you the best strategies and results. And the truth of the matter is, very few really can deliver what they promise. I am afraid to tell you NO - they all don't work and cannot be sustained in the long term (organic). If you have been spending money to the so-called seo experts and seo companies without seeing results in proportion to your investment - maybe you should stop wasting money and invest \$5.97 to get the results you deserve. In this seo book and seo guide, the author takes you by the hand, step by step showing you how to dominate Google Search Engine using free seo tools with no skill whatsoever!
